3. About the Policy

SecureLife Family Health Suraksha is a **family floater, indemnity-based health insurance plan** that provides comprehensive hospitalisation cover to the entire family under a single Sum Insured, which can be utilised by any one or more family members during the Policy Year. The plan is designed for families who want holistic protection against rising healthcare costs — covering everything from planned surgeries and day care procedures to serious illnesses such as **cancer**, requiring extended chemotherapy or radiotherapy, as well as maternity and newborn baby cover.

Unlike a fixed-benefit plan, this policy works on a **reimbursement/cashless indemnity basis**, meaning the Company pays actual, reasonable, and customary medical expenses incurred, up to the Sum Insured, subject to policy terms, sub-limits, and applicable waiting periods. The plan includes a **Restoration Benefit** and a **No Claim Bonus** to ensure the family's protection scales with their needs over time.

This is a **health indemnity offering** of SecureLife Insurance Pvt. Ltd.'s Health Division, distinct from the Company's life insurance and fixed-benefit critical illness products.
